Certificate of Analysis

CLIENT / BRAND	BATCH ID	CLIENT BATCH / LOT	COMPOUND	SAMPLE (AS RUN)	DATE RECEIVED	DATE ANALYZED
ARC Wholesale	ARC-TR-000041	ARC-LOT-000041	Epithalon	Epithalon 10mg	04 NOV 2026	04 NOV 2026

CHROMATOGRAPHIC PURITY	CONTENT PER VIAL	RETENTION TIME	APPEARANCE
99.46%	**10.69 mg**	**~0.46 min**	**White lyophilized powder**
OF TOTAL INTEGRATED PEAK AREA	MG PER VIAL LABEL CLAIM: 10 MG	Epithalon	CONFIRMED

Overall: Results reported

Identity confirmed as Epitalon by LC-MS ([M+H]+ m/z 391.0). Purity by HPLC-UV area %. Approximate RTs are read from the supplied plot.

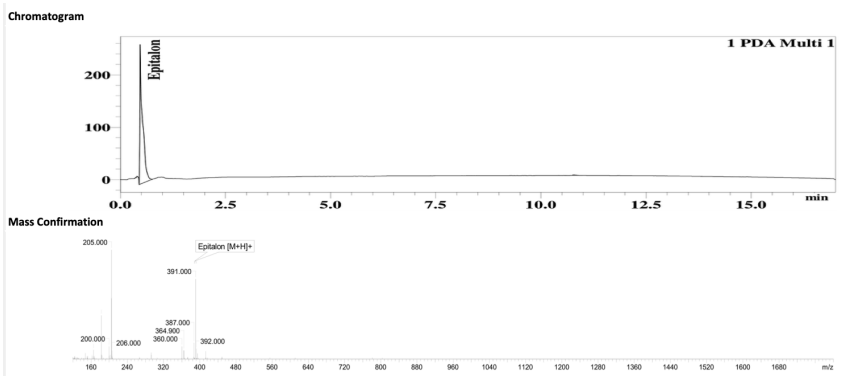

SPEC SET IS CLIENT / METHOD-DEFINED

SUMMARY OF RESULTS

TEST	SPECIFICATION	RESULT	STATUS
Appearance		White lyophilized powder	**Confirmed**
Identity		Epitalon (LC-MS)	**Confirmed**
Purity (HPLC, area %)	≥97.9%	99.46%	**Conforms**
Content per vial	85%–115% of the labeled amount	10.69 mg	**Conforms**

CHROMATOGRAM & SAMPLE REFERENCE

HPLC CHROMATOGRAM

How to read this. Chromatographic purity is the percentage of total integrated peak area — how much of the detected material is the target peptide versus impurities. It is not a measure of net peptide mass content (what fraction of the powder is peptide versus counter-ion, water, or residual solvent). That mass content is measured separately and reported above as content per vial (mg net peptide). Results apply only to the sample submitted.

DATE OF ISSUE

06 NOV 2026

The results reported herein were produced by Arc Clarity using method / SOP HPLC-UV / LC-MS. Source record: Epithalon 10mg. Results apply solely to the specific sample as received from the client. Testing was limited to the parameters stated on this certificate; unless expressly noted, no assessment was made of sterility, endotoxin, microbial, heavy-metal, or residual-solvent content. This certificate is provided for informational research purposes only and is not a determination of safety, quality, efficacy, or fitness for any purpose, nor an endorsement or recommendation for human or animal consumption. Client-supplied information (including label claim, lot number, and sample identity) is reported as provided and was not independently verified. ARC Clarity is not affiliated with the manufacturer or distributor of the sample and assumes no liability arising from use of this report or of the material. This certificate may not be reproduced except in full. Prepared for handwritten authorization; not digitally signed.
